In addition, we read all the financial and non-financial information in the Director's Report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Adoption of new or amended standards and interpretations in the current year

In the current year, the following new or amended standards have been adopted. Their adoption has not had a significant impact on the amounts reported or the disclosure and presentation in these financial statements, but may impact the accounting or the disclosure and presentation for future transactions and arrangements.

IAS 24 Amendment "Related parties" is effective for annual reporting periods commencing on or after 1 January 2011. The amendment clarifies the definition of related parties.

New or amended standards and interpretations in issue but not yet effective and not EU endorsed

The following new standards, amendments to standards and interpretations that are expected to impact the Company, which have not been applied in these financial statements, were in issue, but are not yet effective and are not EU endorsed.

IFRS 9 "Financial Instruments" is effective for annual reporting periods commencing on or after 1 January 2015. The standard will eventually replace IAS 39 but currently only details the requirements for recognition and measurement of financial assets.

IFRS 11 "Joint arrangements" is effective for annual periods beginning on or after 1 January 2013. This standard provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form.

IFRS 12 "Disclosure of interests in other entities" is effective for annual periods beginning on or after 1 January 2013. This standard includes the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles.

IAS 28 (revised) "Investments in associates and joint ventures" is effective for annual periods beginning on or after 1 January 2013. This standard includes the requirements for joint ventures, as well as associates, to be equity accounted following the issue of IFRS 11.

IAS 32 "Offsetting financial assets and liabilities" is effective for annual periods beginning on or after 1 January 2014, and provides clarification on the application of offsetting rules.

Management is currently assessing the impact of adopting these new or amended standards and interpretations.

Notes to the financial statements for the year ended 30 September 2012

2. Significant accounting policies

The principal accounting policies applied in the preparation of the financial information presented in this document are set out below

Basis of accounting

These financial statements have been prepared in accordance with IFRS and IFRIC interpretations and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have also been prepared in accordance with IFRS adopted for use in the European Union.

The accounting policies adopted are consistent with those of the previous financial year except for those which the Company has adopted in the year.

The Directors believe that preparing the accounts on the going concern basis is appropriate due to the continued financial support of Thomas Cook Investments (2) Limited, a fellow subsidiary of Thomas Cook Group plc. The Directors have received confirmation that Thomas Cook Investments (2) Limited intend to support the Company for at least one year after these financial statements are signed.

The financial statements have been prepared on a going concern basis and under the historical cost convention, except for revaluation of certain financial instruments. The principal accounting policies adopted are set out below.

Investments

Investments in subsidiary undertakings are shown at cost less provision for impairment.

Income from shares in Subsidiary undertakings

Dividends receivable from subsidiary undertakings are recognised in the statement of comprehensive expense when the consideration is received.

Taxation

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Provision is made for deferred tax so as to recognise all temporary differences which have originated but not reversed at the balance sheet date that result in an obligation to pay more tax, or a right to pay less tax in the future. This is calculated on a non-discounted basis by reference to the average tax rates that are expected to apply in the relevant jurisdiction and for the periods in which the temporary differences are expected to reverse. Deferred tax assets are assessed at each balance sheet date and are only recognised to the extent that their recovery against future taxable profits is probable.

Foreign currency

Transactions in currencies other than the functional currency of the Company are translated at the exchange rate on the date of the transaction. Foreign currency monetary assets and liabilities held at the year end are translated at year end exchange rates. The resulting exchange gain or loss is taken through the statement of comprehensive expense.

Trade and other receivables

Trade and other receivables are recognised at their fair value and subsequently recorded at amortised cost using the effective interest method as reduced by allowances for estimated irrecoverable amounts. An allowance for irrecoverable amounts is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The amount of allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows.

Trade and other payables

Trade and other payables are recognised at their fair value and subsequently recorded at amortised cost using the effective interest method.

11 Financial risk

The Company's financial instruments comprise amounts due to/from subsidiary undertakings, cash and cash equivalents, and other payables and receivables. The Company believes the value of its financial assets to be fully recoverable.

The carrying value of the Company's financial instruments as at 30 September 2012 was not exposed to movements in foreign currency exchange rates. As at 30 September 2011 the carrying value of the Company's financial instruments was exposed to movements in foreign currency exchange rates (primarily US dollar). The Company estimates that a 5% strengthening in the US dollar would increase profit before tax by £nil (2011: £0.2m), while a 5% decrease in the value of the US dollar would decrease profit before tax by £nil (2011: £0.3m).

Movements of 5% is used for consistency to prior year comparatives and to other financial statements in the Group.

The maturity of contracted cash flows on the Company's financial liabilities are as follows:

	Not later than one year	Later than one year and not later than five years	Total
	2012 £m	2012 £m	2012 £m

All cash flow projections shown above are on an undiscounted basis. Any cash flows based on a floating rate are calculated using interest rates as set as the date of the last rate reset.
